Confirmed Threat to Life & State-Sponsored Persecution

📅 Date 11 November 2025

📍 Prepared for:

United Nations High Commissioner for Refugees (UNHCR), Office of the High Commissioner for Human Rights (OHCHR), Amnesty International, International Criminal Court (ICC), medical and psychiatric professionals, and emergency social services.

## 🚨 EXECUTIVE SUMMARY

Dr. Richard William McLean — a nationally recognized author, artist, and human-rights advocate — faces an imminent, life-threatening crisis.

By 9 AM (AEDT) on 12 Nov 2025, he will be homeless, following a month-long institutionalization without treatment, during which his dog and vehicle were confiscated. This occurs amid confirmed death threats from an Australian NDIS

manager (“You will be sacrificed”) and a 35-year documented campaign of persecution involving identity theft, fraud, defamation, and denial of medical care.

Over 2,000 verified evidence files support his claim that this is a case of state-sponsored persecution meeting the thresholds for:

- UNHCR asylum (Refugee Convention 1951)
- Crimes Against Humanity (Rome Statute Art. 7)
- Violations of the UN Convention Against Torture (CAT)
